Email Id : aadesh2004rane@gmail.com

Highly motivated and detail-oriented Software Developer with experience in developing and maintaining applications such as AMPPS and WorkViewer. Proven track record of optimizing source code and upgrading existing applications. Skilled in C++, Qt Creator, and cross-platform development. Possesses excellent communication and teamwork skills, with a strong foundation in computer science and engineering.

Work Experience

Software Developer
Softaculous Pvt. Ltd   January 2023 - Present

As a Developer for AMPPS and WorkViewer, I leveraged my expertise in C++, Qt Creator, and cross-platform development to deliver high-quality applications, providing intuitive user experiences and robust functionality.

Key Responsibilities:
AMPPS Stack Application:
  Developed and maintained the application, ensuring seamless integration of new features. Integrated open-source applications like Apache, MySQL, PHP, MongoDB, and FTP with the AMPPS Stack.

Work Viewer Application:
  Designed and developed the application for tracking user activity and screenshot capture.Ensured cross-platform compatibility and user-friendly experience across Windows and macOS.

Source Code Optimization: Analyzed, modified, and built source code for PHP, Nginx, Apache, PostgreSQL, PHP extensions, and modules.Enhanced integration processes and performance within the Webuzo panel.

Application Upgrades: Led efforts to upgrade and maintain existing applications within Webuzo and Softaculous.

Issue Resolution: Proactively addressed and resolved integration issues, working closely with support and development teams.

Automation Tester - BSE Project
Zensoft Pvt. Ltd   November 2021 - December 2022

Automated testing of BSE's trading platform to ensure seamless trading experiences, leveraging UFT and Qualitia for efficient test automation.

Key Responsibilities:

Designed and developed automation test scripts using UFT (QTP) and Qualitia.Created test cases for functional, regression, and performance testing.

Executed automated tests, identified defects, and reported issues to the development team.

Collaborated with the manual testing team for test case review and coverage.

Integrated UFT and Qualitia with test management tools for centralized test management

EDUCATION

Education	Year of Passing	Collage/ School	University/ Board	Grade/Marks	Remark
B.E.(cse)	2021	S.S.P.M's.Collage of Engineering Kankavli	Mumbai University	CGPI - 7.78 71.50%	Pass
12th	2017	N.S.P. Junior Collage Devgad	HSC	58.31	Pass
10th	2015	Shirgaon Highschool Shirgaon	SSC	87.80%	Pass

ACADEMIC CERTIFICATION

- I have completed workshop on Augmented reality & Virtual reality form Tech Cryptors, Mumbai
- I have completed workshop on Android Botix with Ardiuno form Robokart.com
- I have done spoken tutorials Certification in JAVA, PHP-MYSQL, LINUX, PYTHON, RDBMS from IIT Bombay

INTERNSHIPS

- Core Java from Internshala in June 2021 (One & Half Month)
- Internet Automation & Predictive Analysis using machine Learning from Tech Cryptors in December 2019 (One Month)
- Android App Development from Internshala in June 2018 (Two Month)

FINAL YEAR PROJECT

- Project Name :   Employability Skill Tracking & Development System

- Technology :   I have used PHP Laravel Frame Work, XAMMP Web server, MYSQL Database & visual studio code IDE.

- Project Description : Our project providing a solution to assess the skill set of students, Track students skill set development, provide the monitoring in developing particular skill set.

SKILLS

- Qt, CMake

- C, C++ Language

- Core Java

- MySQL Database

- HTML, CSS, PHP

- Microsoft Office

PERSONAL DETAILS

- Date of Birth   : 20th April 1999

- Age   : 25 Years

- Residential Address   : At Post - Torsole, Tal.- Devgad, Dist.- Sindhudurga,
                           State - Maharashtra, Pin - 416611

HOBBIES

- Reading about Technology
- Photography
